## A MESSAGE TO EMPLOYERS

### AND WORKERS

The State of New Hampshire operates a system of public employment offices whose services are without charge either to the employers or to the workers.

OF INTEREST TO EMPLOYERS is the fact that workers are referred to job openings strictly on qualification basis. The employment offices refer applicants in accordance with the specifications designated. Employers have the final choice regarding who shall be hired.

OF INTEREST TO WORKERS is the fact that the public employment offices register persons who are seeking work, and endeavor to find suitable jobs for them. It costs a worker nothing to keep his registration active with his nearest State Employment office except the effort of doing so. However, he may gain a great deal. As openings are found which he is qualified to fill, he is referred to the employers and the possibility of a steady job may be his reward.

Approximately 2,000 jobs are filled each month as a result of referrals made by the State Employment Service. Skilled, semi-skilled, unskilled, professional, commercial and domestic workers are placed in jobs each month.

Hiring through the State Employment Service simplifies the work of the personnel director, the business man, the housewife.

Registering with the State Employment Service is no guarantee that a job for everyone will be found. But one's opportunities are greatly increased.

Full-time offices of the Employment Service are strategically located in 10 cities and towns. Part-time offices are located throughout the state. Consult your telephone book for the address of your nearest office.

### *Annual Report of School Nurse*

During the school year, the equivalent of about 18 working days were spent in school work. Two routine physical inspections of all school children have been made by the school physician, assisted by the nurse. One hundred forty-six defects were found at one inspection

and 167 at the other. The parents were notified of each defect and records were kept of the same. During the summer months assistance was given to 10 children for visual defects and to 18 children who had diseased tonsils. This work was partially financed by the assistance of various local organizations. Free milk has been supplied for about 50 children, the number varying from week to week. It is pleasant to report that there have been but few contagious diseases during the year.

The kindly co-operation of the Superintendent of Schools, the teachers and the pupils is very much appreciated.

Respectfully submitted,

LURLINE H. McCOOK, R. N.,  
School Nurse.

### *Teachers*

Miss Anne Piecuch, teacher of grade one, resigned in June to be married. This vacancy was filled by the appointment of Miss Harriot Hood, a graduate of Plymouth Normal School in the class of 1938.

Miss S. Katherine Baker, teacher of third grade for several years, was assigned to do remedial work and to assist in the lower grades.

Mr. Francis W. Tatro has continued his work in instrumental music which was introduced last year. He has developed a growing interest in music in a group of boys and girls who have made creditable progress.

*High School Building*

At a meeting of the School Board held June 14, 1938,

Dr. Joel E. Nordholm, Chairman, was authorized to execute and file an application on behalf of the Tilton and Northfield Union School District to the United States of America for a grant to aid in financing the construction of a Junior-Senior High School Building, and Dr. Nordholm was further authorized and directed to furnish such information as the United States of America through the Federal Emergency Administration of Public Works might reasonably request in connection with the application.

The application was immediately prepared, with the advise of the Architects, Wells, Hudson & Granger of Hanover, New Hampshire, and filed under date of June 18. The application was for a grant for the construction and equipment of a building, the total cost of which was estimated at \$155,600. Word was received on July 31, from Col. M. E. Gilmore, Regional Director, P.W.A., that Public Works Administrator, Harold L. Ickes, had given his approval for a grant not to exceed \$70,020.00.

A special meeting of the school district, called under the authority of Chapter 113 of the Session Laws of 1935, was held at the Tilton Town Hall August 17, 1938. The meeting voted to "construct and equip a Junior-Senior High School Building, and acquire any necessary property therefore". A committee, consisting of Fred M. Boynton, George Lincoln, William C. Sargent, Arthur S. Brown, and the members of the School Board, was appointed to determine the location of the high school building. The School Board was authorized "to execute any and all contracts or agreements necessary, proper or advisable in connection with the construction of a

Junior-Senior High School Building, the purchase of equipment and the acquisition of necessary land."

The School Board was further authorized to petition the Tax Commission for approval to make application to the Governor and Council for authority to exceed the existing debt limitation of the Tilton and Northfield Union School District to an amount which would permit the district taking advantage of a grant of the United States Government of \$70,020.00.

It was further voted to raise and appropriate a sum not to exceed \$85,580.00, in addition to the anticipated grant from the Federal Government, and the School Board was authorized to issue bonds for said amount for the purpose of financing the project. The School Board was given authority to accept any and all offers made by the Federal Emergency Administration of Public Works.

On September 13, 1938, a definite offer of a grant of \$70,020.00 was received from the Government with the understanding that work on the school building should begin within twelve weeks from the date of the offer, and that the project should be completed within ten months from the commencement of construction.

At a meeting of the School Board held September 14, formal acceptance of the offer was made.

After careful consideration of several locations proposed, the committee, chosen at the special meeting of the school district, decided upon the Carter lot on West Main Street, and the School board took the necessary action for purchasing this property. The purchase price was \$5,500.00.

Wells, Hudson & Granger were chosen as architects for the new building. Authority having been given by the Governor and Council to exceed the debt limitation of the district, the School Board issued and sold on bids to Frederick M. Swan & Co., Inc. of Boston,  $2\frac{1}{4}\%$  district bonds in the amount of \$85,000.00. Plans were prepared by the architects, submitted to and approved by the P. W. A. authorities and the office of the State Commissioner of Education, and bids for the general contract were advertised for under P. W. A. regulations. The bids were opened December 1, and the firm of D. A. Sullivan & Sons, Inc. of Northampton, Mass., was found to be the lowest bidder, and a contract was made with this concern, the contract price being \$128,734.00.

Work began on the building December 6. In spite of unfavorable weather conditions reasonable progress has been made. We have the promise from the contractors that the building will be completed and ready for occupancy the first of September.

I wish to express my appreciation for the co-operation and assistance which I have received from many sources, including the children, during the past year.

Respectfully submitted,

CHANNING T. SANBORN,

February 24, 1939.

Superintendent of Schools.
